GENERAL INFORMATION

This directory is intended as a guide and lists the names of all institutions offering programs of education or training approved for the enrollment of veterans and other eligible people. The listing does not imply that all courses offered by the institutions are approved.

Any accredited high school in the state may be approved for the education of veterans; therefore, veterans interested in pursuing a course in a high school should ask the local administrator to contact William C. Howard, Manager, Veterans Education, Office of Public Instruction.

Veterans interested in short-term vocational courses funded under the Comprehensive Employment Training Act should direct inquiries to the local Employment Service Office.

Matters concerning the veterans and other eligible persons should be referred directly to either the office of the State Veterans Affairs Division or the Veterans Administration.

The index of courses with institution code numbers is included as an aid in using the list of institutions. Many courses of a vocational-technical nature are also listed with the institution. Some short-term courses may not show in the index. The index should not be accepted as all inclusive and the veteran is urged to contact the institution directly for specific information.

For specific course or training information, contact the institution or the state approving agency.
